

International Mass Fatality Management Conference and Workshop

By Invitation Only

Date: April 25 – 27, 2012

Place: NYC Office of Chief Medical Examiner
421 East 26th Street, New York City

The objective of this conference is to bring together domestic and international experts and leaders in mass fatality management to explore past incident management, discuss lessons learned and define best practices to enhance future responses and coordination.

Conference Schedule

Wednesday, April 25th

Theme: September 11th 2001; Advances in Disaster Victim ID

Thursday, April 26th

Theme: International Incidents; Complex Policy and Strategic Decisions in MF Management

Friday, April 27th

Theme: Transportation Incidents; US Federal Integration in Local responses and Regional Coordination

Please RSVP to Emily Carroll, Regional Project Coordinator, at emcarroll@ocme.nyc.gov, to express your interest in attending the conference
